

DW TECH BULLETIN

DOC#: DW04252011

Distribution: Internal and External

April 25, 2011

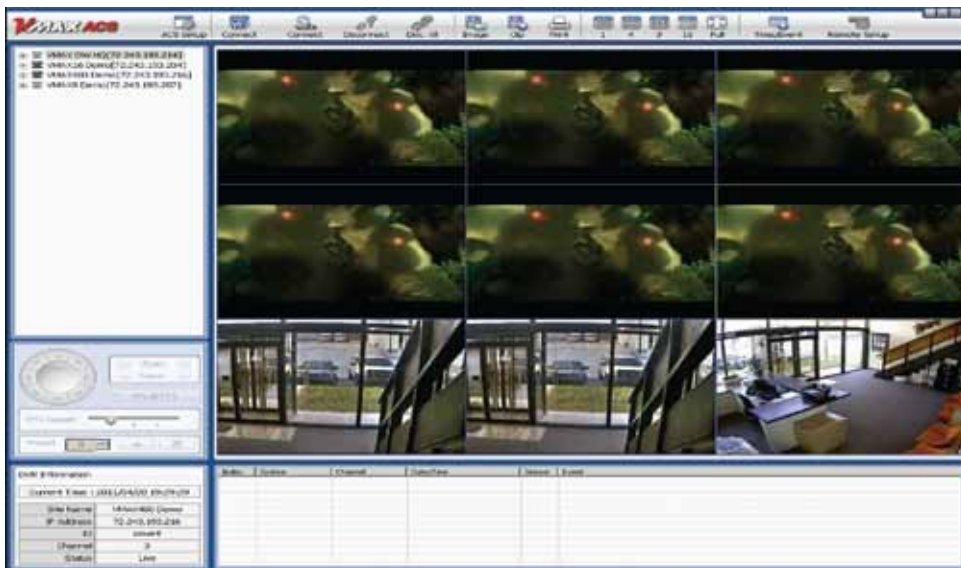

subject: VMAX4 Channel Series Hardware Improvement

The VMAX 4 Channel Hardware has been improved to support the second DDNS (DWDDNS.net).

It is highly recommended to update the ACS (Advanced Client Software) and Pivot CMS (Central Monitoring Software) to connect to the current or new VMAX 4 series.

Please click [here](#) to download the latest software.
