

Tampa, FL, May, 2013 – Digital Watchdog would like to announce the release of 1.5 DW Spectrum remote monitoring application, available on the Google Play Store.

Minimum Operating System Required: Android™ Froyo 2.2 or higher.
Control your entire security system with the single touch of a finger.

What's New in Version 1.5?

- Compatible with the new 1.5 DW Spectrum software.
- Better compatibility with Enterprise controller.
- Backwards compatibility with all previous versions of DW Spectrum
- View IP cameras and VMAX Analog DVRs from a single app.
- Live and Playback from Blackjack servers and supported VMAX Analog DVRs.

To download the app, enter "Digital Watchdog" in the Google Play Store's search bar or click [here](#).

Go to http://dwcc.tv/digitalwatchdog_Demos/Demo_room.asp to view Digital Watchdog's DW Spectrum demos.

Scan the barcode to access Digital Watchdog's website for more information, supported devices, and all available demo sites.
