

**Tampa, FL. June, 2013** – Digital Watchdog would like to announce the release of Pivot Software version 5.8

### What's New V5.8?

- › Re-introduced the Scheduled backup feature.
- › Fixed DVR's camera title issue.

### How to Setup Scheduled Backup on the Pivot 5.8?

1. In the Pivot's main page, click the Setup tab on the top left side of the window.
2. Select Backup Setup.
3. Select a device from the available list and click the 'Schedule' button.
4. To setup a scheduled backup:
  - a. Select the 'ON' button.
  - b. Select which cameras to be included in the scheduled backup.
  - c. Select when the scheduled backup will be activated. You can setup a daily or weekly schedule, or select specific days from the calendar.
  - d. When all desired schedules have been added, select the schedule from the list and press the 'Start' button at the top of the 'Backup Config' window. Press 'OK' to save and close.

Scan the barcode to access our website for more information, access our DVR demos, and download the new software.
