

## Digital Watchdog® Upgrades its Blackjack™ NVR Line with a Linux®-Based Blackjack Cube

**Blackjack™ Cube Linux-Based IP Recording Solution**

**Tampa, FL January 12, 2015**– [Digital Watchdog](#) (DW™), the industry leader in digital recorders, surveillance cameras and related management software, announces the release of our new Linux-based Blackjack Cube Network Video Recorder. The new Linux Cube will replace the current Blackjack Blade as an advanced Linux-based small venue IP recording solution. The Linux-based Blackjack Cube offers a significant increase in hardware capability and performance compared to the Blade.

The Blackjack Cube is a powerful NVR Powered by DW Spectrum IPVMS. The NVR records and manages up to 16 2.1mp Cameras at 30fps with 80 Mbps throughput. The hardware includes DVI-D/DVI-I outputs for local monitoring, an Intel® I3 processor, dual network cards and scheduled auto reboot to maintain hardware performance. The Blackjack Cube supports cross-platform connectivity for Windows and MAC client software, and allows you to connect to and monitor your system from almost anywhere. The NVR is OnVIF Profile S conformant, is available with from 2 to 18TB hard drives for true enterprise scalability and comes with an unbeatable 5 Year Limited Warranty.

The new Linux Cube offers upgraded features to the discontinued Blade, with local full DW Spectrum™ client setup and monitoring support.

NVR features include:

- › Supports All OnVIF Conformant IP Cameras
- › Storage Options 2-18TB Internal Storage
- › Record up to 16 2.1MP IP Cameras at a Maximum of 80Mbps
- › Local Monitoring Output Ports

# Digital Watchdog Press Release

---
