Re: DW Spectrum™ New Software Update (v. 2.3.0.8476)

Digital Watchdog announces the release of the latest software update for the DW Spectrum™ IP VMS Software. The software is available to download on our website at the links below and also from DW's public library.

Release notes for version 2.3.0.8476:

- › Improvements to DW MEGApix® IP cameras' recording bit rate.
- › Live and Playback issues for DW VMAX Flex™ and VMAX 960H™ DVRs have been resolved.

For DW Spectrum download page: [http://digital-watchdog.com/products/?route=product/product&path=120&product\\_id=870](http://digital-watchdog.com/products/?route=product/product&path=120&product_id=870)

For public library downloads: [http://publiclibrary.dwcc.tv/NVR/DW\\_Spectrum/Software/](http://publiclibrary.dwcc.tv/NVR/DW_Spectrum/Software/)

If you are already running a DW Spectrum version 2.3, please use the auto update feature in the software itself. For auto updates, enter version 8476 in the remote update page and use the following password: 1thw1f.
