

VMAX960H

VMAX960HFlex

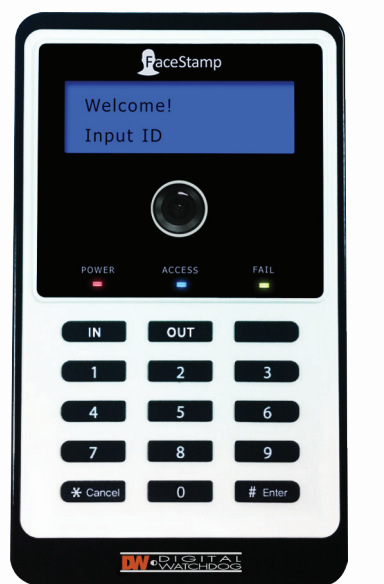

The VMAX960HFlex model is an advanced H.264 Stand Alone digital video recorder that records real-time at 960H, D1, 2CIF, and CIF Resolutions. This DVR offers the unparalleled image quality of the VMAX960H, at an affordable cost for low and mid-size applications. In addition, the DVR offers great features such as Free DDNS, One Touch Backup and Playback, Single Channel Playback in Live, Mac Compatibility, and is supported by our popular mobile application. The DVR is available with basic storage from 1 to 6 Terabytes.

34% More Resolution

EMPLOYEE MANAGEMENT FACESTAMP

Complete control and visibility over employee management and fraud prevention.

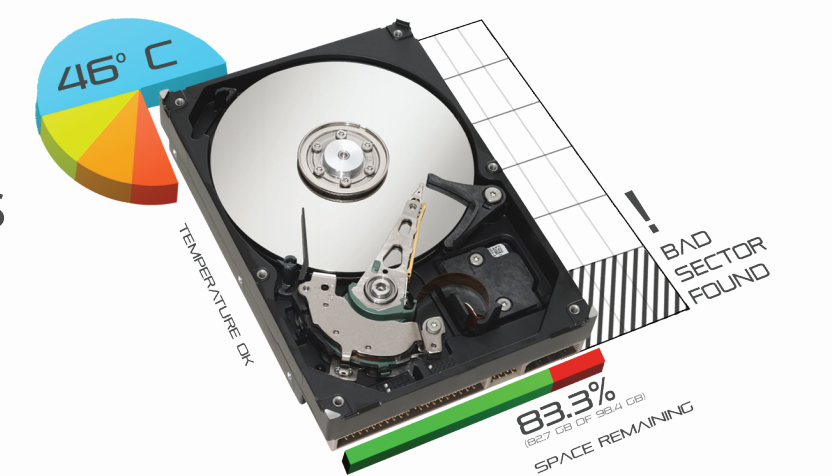

5X SIGNAL EXTENDER

Reduces digital noise and amplifies image quality over UTP (i.e. Cat 5, 6, etc.) or Coax (RG-59) cables with no repeaters or special installation.

HDD HEALTH DIAGNOSTICS

A convenient tool that keeps track of the HDD's vital stats and notifies you of any abnormalities.

IMPROVED CLARITY 960H RESOLUTION

High quality recording at 960H provides clear images that are 34% bigger compared to D1 and 500% bigger compared to CIF
