

The image displays the DW Spectrum IPVMS software interface. On the left is a 'Resources' sidebar with a tree view of system components including servers, buildings, and users. The main area shows a live video feed from a camera positioned above an airport check-in counter. A white camera icon is overlaid at the top center. Three rectangular boxes on the video feed indicate zoomed-in areas: a yellow box around a man at a counter, a red box around a red suitcase, and a green box around a woman at a counter. Below the main feed are three tilted inset images corresponding to these zoomed areas. A hand is shown holding the green inset image, suggesting a 'spyglass' or zoom feature.
