Digital Watchdog's ZA-Pro Series 4/8/16 Channel Standalone DVR's Utilizing JPEG2000 Imagery

Digital Watchdog proudly introduces the next generation of its ZA-Pro Series Standalone DVRs. Available with 4, 8, and 16 channels of Video, 4 channels of Audio and Turbo Live View Image Transfer; these standalone units deliver the most advanced Real Time Video and Images available on the market today.

The ZA-Pro Series utilizes the latest JPEG2000 Compression Technology which allows live video and stored images to be of the clearest, most precise resolution. JPEG2000 is accepted by DICOM (Digital Imaging and Communications in Medicine) and the Radiology Society of North America, due to its exceptional image quality.

Convenient search options such as Jog Shuttle Search, Event Search and Date/Time Search, as well as Easy DDNS Set Up and Mouse Driven Menus, make it the right solution for most security applications. The Real Time Operating System (RTOS) delivers superior performance and long term stability. The ZA-Pro offers the same effortless operation while maintaining the high quality that customers have come to expect from Digital Watchdog Security Products.
