

# DW TECH BULLETIN

DOC#: DW10152010

Distribution: Internal and External

October 15, 2010

subject: **Smart IR**

See what is really happening at night.

The Smart IR technology delivers the best night videos. The breakdown of the video image into five zones allows for the camera to adjust the illumination in all areas, giving it a clear night vision. When a subject enters one of the five zones, the lens' iris is automatically adjusted to the zone to provide a clear identification of the subject.

## MODEL NUMBERS:

B1367WTIR	D2363TIR
B1367WTIR650	V1363TIR
V3367WTIR	B1363TIR
D2367WTIR	BL5363TIR
B2382TIR	IV3377WTIR
V1382TIR	
D2382TIR
