

New Digital Watchdog® All-in-One DVR Manages AHD, TVI, 960H and Lower Analog Cameras VMAX A1™ Replaces All Other Digital Video Recorders

VMAX A1 16-Channel Recorder

Cerritos, CA October 26, 2015 – [Digital Watchdog](#) (DW™), the industry leader in digital recorders, surveillance cameras and related management software, announces the release of our new VMAX A1 All-in-One analog, AHD and TVI digital video recorder. The VMAX A1 provides a user-friendly high definition solution engineered to utilize an existing analog installation and support multiple signals simultaneously reducing installation time and complexity, thereby increasing ROI for an HD solution in minutes.

“This revolutionary DVR is the only recorder needed for an analog system that is transitioning to HD video quality,” said Wade Thomas, President and COO, Digital Watchdog. “The A1 comes with all the dynamic features our customers have come to expect from VMAX recorders, with added robustness to support 720p and 1080p cameras.”

The VMAX A1 is a digital video recorder that offers real-time HD monitoring and recording up to 480fps at 960H and 720p and 240fps at 1080p (1920X1080) resolution. The VMAX A1 supports analog signals up to 960H, TVI and Analog High Definition (AHD) signals, leveraging the robustness of analog signal infrastructure for a seamless upgrade to the detail and clarity of 1080p high definition resolution. The A1™ is available in 4-, 8- and 16- channel configurations, can be configured with up to 12 Terabytes of internal storage and is backed by Digital Watchdog’s unbeatable 5 year limited warranty.

Additional DVR features include:

- › Compatible with all 960H and below resolution Analog Cameras, AHD and TVI HD Formats (1080p via Coax) Resolutions
