

Simply Powerful, Powerfully Simple

What is DW Spectrum?

Powerful and user-friendly video management solution, highly optimized to provide unlimited scalability, unmatched bandwidth savings, and simplified system setup and management.

- Automatic Device Discovery
- Simple Enterprise Scalability
- Instant Motion-Based Smart Search
- Easy Drag-n-Drop Camera Management
- Dual Stream Recording
- Cross-Platform: Windows and Linux
- Graphical System Health Monitoring
- Seamless Transition from Live to Search

SPYGLASS (REGION OF INTEREST)

The Spyglass feature lets you zoom into any area within a camera's field-ofview and watch the selected region as a separate display, allowing you to monitor smaller regions of interest separately from the overall camera's image

RULES & ACTIONS CUSTOMIZATION

Quickly setup alerts and notifications from network and storage failure, to motion detection or sensor activation on a camera. Setup to receive popup notifications, voice alerts, or an e-mail with the event link.

FISHEYE SCREEN DE-WARPING

DW Spectrum is built to be fully compatible with the market's leading Hemispheric cameras and is able to translate the camera's feed into multiple viewing methods including panoramic screens that de-warp the camera's image for a fully detailed view.

ADVANCED SEARCH CAPABILITIES

DW Spectrum offers a number of ways to quickly and accurately isolate the critical video security evidence users need, including calendar search and panoramic search.

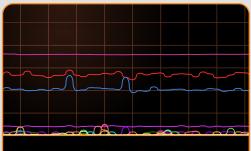

AUTO NETWORK CONFIGURATION

DW Spectrum will automatically discover, populate, and configure cameras on the network. Easily drag and drop cameras across servers and observe seamless enterprise recording!

GRAPHICAL SYSTEM HEALTH MONITORING

Access vital information about the HDD, CPU, and RAM health through informative, easy-to-understand graphical format.

LOG REPORT & SEARCH

Any operational issues that may arise in your surveillance setup can be traced through the advanced log system provided by DW Spectrum, which comes fully equipped with detailed filtering methods to help you identify a specific problem and exporting options for your personal records.

ADVANCED PTZ CONTROL

The intuitive radial controller can be used to alter the camera's direction in all 3 axis, or simply draw a box within any region to immediately focus and zoom onto the area.

CUSTOMIZABLE LAYOUTS

DW Spectrum allows users to fully customize their layout views. No more limited pre-set views. As a user, you are free to customize a layout that fits your individual viewing and management preferences.

INSTANT VIDEO EXPORT

Mark your selection and export as an avi, mkv, and executable file in a quick, simple, and intuitive timeline interface.

DUAL STREAM RECORDING

Cameras can be set to record at high resolution when motion is detected and lower resolution at all other times. This highly optimized feature saves hard drive space while the recording process remains uninterrupted.

THUMBNAIL SEARCH

Chronologically narrow down your search to frame-by-frame detail for finding that critical moment.

SEAMLESS TRANSITION FROM LIVE TO RECORDED

Easily switch between live and review mode by simply scrolling back in time.

MOTION/ SMART SEARCH

Easily pinpoint and identify general motion, missing and foreign objects. Quickly and continuously watch video on user-selected areas (marked in red).

PANORAMIC CAMERA SINGLE LICENSING

DW Spectrum offers seamless simplicity with our single license requirement for all cameras including Arecont's SurroundVideo 20 Megapixel IP Cameras (180° and 360° Coverage)

Blackjack Extreme Bandwidth Optimizer NVR

Summary

The Blackjack NVR powered by DW Spectrum is a powerful and userfriendly video management solution, highly optimized to provide unlimited scalability, unmatched bandwidth savings and simplified system setup and management. The architecture is cross-platform supporting both Windows and Linux.

Features

GENERAL	 Cross-Platform: Windows and Linux Supported Graphical System Health Monitoring Simple Enterprise Scalability
LIVE	 Fully Customizable Layouts Easy Drag-n-Drop Camera Management and Recording Advanced Motion Masking and Sensitivity Settings PTZ Control Region of Interest with Forensic Spyglass
PLAYBACK	 Instant Motion-Based Smart Search Advanced Thumbnail Search and Calendar Search Dual Stream Recording Events Log & Search
